wofstream

ifstream

ifstream::ifstream
public member functions:
ifstream::close
ifstream::is_open
ifstream::open
ifstream::operator=
ifstream::rdbuf
ifstream::swap
non-member overloads:
swap (ifstream)

PatchIT Updating Libraries
PatchIT offers fully automated updating libraries for coding

public member function

std::ifstream::operator=

<fstream>

```

copy (1) ifstream& operator= (const ifstream&) = delete;
move (2) ifstream& operator= (ifstream& rhs);

```

Move assignment

Acquires the contents of *rhs*, by move-assigning its members and base classes.

Parameters

rhs

Another *ifstream* object.

Return Value

*this

Data races

Modifies both stream objects (*this and *rhs*).

Exception safety

No-throw guarantee: this member function never throws exceptions.
